

Nurcacit ZBS
Activator**Technical Data Sheet**

CHEMICAL NAME: Zinc benzenesulfinate

CAS NO.: 24308-84-7

STRUCTURE:

It mainly used in pesticides, pharmaceuticals, plastics, rubber, accelerator, lubricant filler, retardant and AC foam. ZBS can significantly improve product performance.

PRODUCT SPECIFICATIONS

Appearance:		White powder
Sulfur Content	(%)	15.0-18.0
Melting Point Initial	(°C) min.	215
Heating Loss	(%) max.	0.3
Sieve Residue (150 μ m)	(%) max.	0.1
Sieve Residue (63 μ m)	(%) max.	0.5

TYPICAL PROPERTIES

Density	g/m ³	1.2
---------	------------------	-----

PACKAGING:

Net weight 25kg carton or 20kg drum with polyethylene film bags inside

Shelf Life: 24 months under good storage conditions
