

## Nurcacit ZEPC Dithiocarbamate Accelerator

### Technical Data Sheet

CHEMICAL NAME: Zinc N-ethyl-N-phenyldithiocarbamate

CAS NO.: 14634-93-6

STRUCTURE:

An ultra accelerator for NR, SNR, IIR, IR, SBR, NBR, EPDM and their latexes. Better anti-scorching ability when used with Nurcacit MBTS. Provides the best scorch safety and processing safety in dithiocarbamates No poison, no pollution, thus can be applied in the manufacturer of food contact materials

#### PRODUCT SPECIFICATIONS

Grade		Pdr	Pdr-o
Appearance:		White powder	White powder
Initial Melting Point	(°C) min.	205.0	205.0
Heating Loss	(%) max.	0.40	0.40
Zinc content	(%)	13.0-18.0	13.0-18.0
Sieve Residue (150 μ m)	(%) max.	0.10	0.10
Sieve Residue (63 μ m)	(%) max.	0.50	0.50
Additive (oil content)	(%)	---	1.0-2.0

#### PACKAGING:

Bag:	25kg paper bag Or other kind of package clients need
------	---

Shelf Life: 24 months
