

Nurvinox 7PPD Staining Antioxidant

Technical Data Sheet

CHEMICAL NAME: N,N'-di(1,4-dimethylpentyl)-p-phenylenediamine		
CAS NO.: 3801-01-4		
STRUCTURE: 		
Nurvinox 7PPD is easy to disperse in rubber material, the general amount used is 1-3, and it can also use with other antioxidant like Nurvinox TMQ, Nurvinox IPPD and uses. Mainly used in nature and synthetic rubber. Also can be used as stabilizer of SBR.		
PRODUCT SPECIFICATIONS		
Appearance:		garnet liquid
Purity	(%) min.	97.0
Density	(g/cm ³)	1.103
Ash content	(%) max.	0.1
PACKAGING:		
drum:		200Kg iron drum

Shelf Life: 12 monthes
