

**Nurcagran® 600**

Zinc soaps of unsaturated fatty acids on an inert carrier

**Technical Data Sheet****CORRESPONDING TRADEMARK**

Ultra flow 600; Aktiplast T60

**PRODUCT DESCRIPTION**

Nurcagran® 600 behaves is similar to Nurcagran® 500; it improves mixing and processing as well as the incorporation of compound ingredients.

Nurcagran® 600 is compatible with most types of elastomers, except for halogenated polymers.

**TYPICAL PROPERTIES**

Appearance:

Beige to brown pastilles

Melting point

(°C)

75-90

Storage Stability

At least 2 years under normal conditions

**DPSAGE**

2 to 5 phr

**PACKAGING**

25 kg paper bag with PE-Inlay
